

LPN - DAY SHIFT

Full-Time | Onsite | 3-Day Workweek (36 Hours)

\$36.00 - \$43.20 hourly (approximately \$67,392.00 - \$80,870.40 annually) + differential

Work that supports recovery - on a schedule that respects your life.

At Addictions Recovery Center (ARC), we provide trauma-informed care that promotes safety, stability, and dignity - for both clients and staff. Our work is grounded in consistency, clinical excellence, and a team-based approach that supports people through the earliest stages of recovery.

As a Licensed Practical Nurse (LPN) in our Fresh Start Withdrawal Management program, you provide essential care in a medically-monitored detox setting. You support clients through withdrawal, monitor symptoms, administer medications, and help ensure continuity of care as individuals begin their recovery journey.

This role requires strong clinical skills, attention to detail, and the ability to respond effectively in a structured, fast-paced environment. You'll work closely with a multidisciplinary team while maintaining accurate documentation, following provider orders, and supporting a safe, consistent environment for clients.

Join a team where collaboration, accountability, and clear communication support high-quality care - and where your work plays a critical role in helping people take their first steps toward recovery.

Why You'll Love Working at ARC

- A true 3-day, 36-hour workweek that supports real work-life balance
- A structured, team-based environment where you can focus on delivering high-quality care
- A collaborative, multidisciplinary team committed to consistency and strong communication
- A culture grounded in transparency, equity, and respect
- Meaningful work supporting clients at the start of their recovery journey

LPN - DAY SHIFT

What You'll Do

Your work focuses on providing safe, consistent, and trauma-informed care during the overnight shift. Your work focuses on providing safe, consistent, and trauma-informed care - supporting clients through withdrawal and ensuring continuity of care in a medically monitored setting.

On a typical week, you will:

- Monitor clients for withdrawal symptoms and changes in condition
- Administer medications as ordered and maintain accurate medication records
- Complete nursing assessments, including admissions and ongoing evaluations
- Respond to client needs with timely, clinically sound judgment
- Maintain accurate and compliant documentation in the EHR
- Support a safe, structured environment for clients
- Communicate effectively with the nursing team and multidisciplinary staff to ensure continuity of care
- Assist with coverage needs as part of a collaborative team (including holidays and scheduled rotations)
- Maintain compliance with HIPAA, 42 CFR Part 2, and ARC confidentiality standards
- Apply trauma-informed, person-centered care in all interactions\

This role is part of a collaborative care environment where communication, consistency, and teamwork ensure continuity of care - especially during the overnight hours.

If you value meaningful work and take pride in providing steady, reliable care when it matters most, your presence here will make a difference.

Your work will ensure safety, stability, and continuity of care during the a critical stage of early recovery.

Read on to see how this role could be the right fit for you.

LPN - DAY SHIFT

What We're Looking For

We're seeking a Licensed Practical Nurse (LPN) who brings strong clinical judgment, attention to detail, and steady professionalism - someone who understands that consistent, reliable care creates safety, stability, and trust during the earliest stages of recovery.

Required Qualifications

- Current Oregon Licensed Practical Nurse (LPN) license
- CPR certification
- Ability to perform nursing assessments, including admissions and ongoing evaluations
- Ability to follow provider orders and administer medications accurately
- Strong documentation and organizational skills
- Ability to maintain focus and respond effectively in a fast-paced environment
- Professional demeanor and ability to collaborate within a multidisciplinary team
- Understanding of HIPAA, 42 CFR Part 2, and confidentiality standards
- Basic to moderate computer proficiency, including EHR systems

Preferred Qualifications

- Experience in substance use treatment, withdrawal management, or a related setting
- Experience working with medically complex or high-acuity populations
- Ability to respond to changing clinical situations with sound judgment
- Experience working in 24/7 care environments
- Spanish bilingual preferred

The Personal Qualities That Help You Thrive Here

- **Calm and steady** - you maintain focus and sound judgment in fast-paced or urgent situations
- **Reliable and consistent** - you create safety and continuity through your presence and follow-through
- **Clinically grounded** - you apply strong judgment and attention to detail in all aspects of care
- **Collaborative** - you communicate clearly and work effectively within a multidisciplinary team
- **Respectful and compassionate** - you treat clients and coworkers with dignity and professionalism
- **Organized and accountable** - you manage documentation and responsibilities with accuracy and attention to detail
- **Mission-aligned** - you value equity, transparency, and reducing stigma in recovery

COMPENSATION & BENEFITS
